(paleontology and geography)  
American, English and comparative literature, and classics (Ancient Greek and Roman culture, language and literature)  
City (urban) planning  
Communication (print, online and broadcast journalism, and tech writing)  
Pre-Law  
Criminology  
Social justice  
Education (early childhood and special education)  
Economics  
English (creative writing and linguistics)  
Ethnic and gender studies  
Foreign languages and literature  
History and archaeology  
Library and information sciences  
Philosophy and rhetoric  
Political science  
(international studies)

Psychology  
Religious studies  
Sociology  
Arts Management  
Education  
Emergency Management  
English/Writing  
Equine Science  
Management  
Family and Child Science  
History  
Journalism  
Language Studies  
Non-Profit Management  
Peace/Conflict Studies  
Philosophy  
Psychology  
Sociology  
Women/Gender Studies

## **Engineering & Technology**

Aerospace Engineering  
Astronomy  
Physics  
Aviation/Aeronautics  
Biomedical Engineering  
Chemical Engineering  
Civil Engineering  
Computer Science  
Cyber Security  
Electrical Engineering  
Energy Science  
Engineering  
Industrial Engineering  
Industrial Technology  
Materials Science  
Mathematics  
Mechanical Engineering

## **Business**

Accounting  
General Business  
Construction Management  
Data Science/Analytics  
Economics

Finance  
Hospitality Management  
Human Resources  
Management  
Information Systems (MIS)  
Insurance and Risk  
Management  
Marketing/Advertising  
National Parks  
Management  
Public Health  
Administration  
Sport Management  
Supply Chain  
Management (Logistics)

## **Math & Science**

Geographic Information  
Science  
Geography  
Meteorology-Climatology  
Mathematics and applied  
mathematics (biology,  
engineering and  
economics)  
Agricultural sciences  
(agricultural and  
environmental education,  
animal biology, animal  
science and management,  
avian sciences,  
biotechnology,  
entomology, plant  
sciences, and viticulture  
and enology)  
Astronomy (astronautics,  
and astrophysics)  
Biochemistry  
Bioengineering (medical  
technology)  
Biology (cell, marine,  
micro, molecular and  
neurobiology)  
Botany  
Chemistry

# College Majors by Academic Subject

Criminal science and forensics  
Earth and space sciences, (geology, geochemistry, geophysics, paleobiology and paleontology, space physics and seismology)  
Environmental sciences (atmospheric sciences)  
Food science (nutrition science and culinary arts)  
Genetics  
Kinesiology (sports medicine and exercise biology)  
Marine biology and oceanography  
Nursing  
Physics  
Physiology  
Pre-Medical  
Pre-Dental  
Psychology  
Speech and hearing sciences and disorders  
Statistics

## **Social & Behavioral Sciences**

African and African American Studies  
American Indian Studies  
Anthropology  
Quantitative Science  
Applied Science (Applied Leadership)  
Business (Global Leadership)  
Business (Global Politics)  
Civic and Economic Thought and Leadership  
Communication  
Community Sports Management  
Conflict Resolution  
Counseling and Applied Psychological Science  
Criminology and Criminal Justice
